Close Range

I wanna scream, I wanna shout

I wanna know what it's all about

I've seen it before but not like this

I saw your name, it was on the list

By 4 O'Clock (It's gonna change)

You were pretty high (It's gonna change)

Right on the floor (It's gonna change)

Looking at the sky (It's gonna change)

I remember you (It's gonna change)

When you were a kid (It's gonna change)

It was pretty strange (It's gonna change)

And things you did

You've got to pull yourself together man

You've got to get back on your feet again

How can I ever make you understand

You've got the world right in your hands

No cold heart could turn away

And not be moved by what I saw today

There on the floor, thirty years or more

He doesn't care, he just wants to score

By 4 O'Clock (It's gonna change)

You were pretty high (It's gonna change)

Right on the floor (It's gonna change)

Looking at the sky (It's gonna change)

I remember you (It's gonna change)

When you were a kid (It's gonna change)

It was pretty strange (It's gonna change)

And things you did

You've got to pull yourself together man

You've got to get back on your feet again

How can I ever make you understand

You've got the world right in your hands

You've got to pull yourself together man

You've got to get back on your feet again

How can I ever make you understand

You've got the world right in your hands

Yet it only seems just like yesterday

We used to run and hide

Remember in the park where we used to play

The grass looked ten foot high

You've got to pull yourself together man

You've got to get back on your feet again

How can I ever make you understand

You've got the world right in your hands

You've got to pull yourself together man

You've got to get back on your feet again

How can I ever make you understand

You've got the world right in your hands
