I've watched your face for a long time
It's always the same
I've studied the cracks and the wrinkles
You were always so vain
Well, now you live your life like a shadow
In the pouring rain
Oh, it's called love
Yes, it's called love
Oh, it's called love
And it belongs to us
Oh, it dies so quickly
It grows so slowly
But when it dies, it dies for good
It's called love
And it belongs to everyone but us
I've lived my life in the valleys
I've lived my life on the hills
I've lived my life on alcohol
I've lived my life on pills
But it's called love
And it belongs to us

It's called love

And it's the only thing that's worth living for

It's called love

And it belongs to us

It's called love

Yes it's called love

Oh, love is found in the east and west

But when love is at home, it's the best

Love is the cure for every evil

Love is the air that supports the eagle

It's called love

And it's so un-cool

It's called love

And somehow it's become unmentionable

It's called love

And it belongs to every one of us

It's called love

And it cuts your life like a broken knife
