Three miles to go

Three miles to go

At the end of the road

There's a soldier waiting for me

I've got three miles to go

Three miles to go

At the end of the road

There's a soldier waiting for me

At the end of the road

At the end of the road

At the end of the road

Life goes on and on in this real life fantasy

Forever to be still

Blood held tight inside of me

Life goes on and on in this real life fantasy

Forever to be still

Red held tight inside of me

Life goes on and on...

It's a red sky tonight

It's a red sky tonight

At the end of the road

Where all futures go
At the end of the road
There's a soldier waiting for me
He's got three miles to go
Three miles to go
At the end of the road
At the end of the road
There's blood on shore
Life goes on and on in this real life fantasy
Forever to be still
Red held tight inside of me
Life goes on and on in this real life fantasy
Forever to be still
Red held tight inside of me
