So many faces  
In crimson light  
Piercing sight  
Take'em off me !!!

All fiends are coming  
And gather 'round me  
Frozen cry in boiling flesh  
Recollections in my head

My heart beating  
Still louder:  
Oh - madness take my soul !!!

The walls are coming closer  
Strangulating fear  
My mind imprisoned  
And screaming for the end

The silence is killing me:  
The silence is burying me:

Freezing silence  
Freezing silence
