Since your rebirth  
I am always with you  
Deep in your mind  
Creative, protective  
And never forget it...

I was and I am  
In your thoughts and your breath  
I dwell in your dreams  
I am your life and your death

[Lead: Peter / Marek]

I stay with you  
Every day, every night  
You hear my whispers  
I am your guide

So never again  
Say my name aloud  
Protect what you've got  
And keep it away from the crowd

Away from the crowd
