"The Final Massacre"

Warriors with hate inflict destruction
Comes true the awful prediction
Still alive corpses lie in the street
Spitting the blood to the God
Dying in flames dammed mob
Screaming with pain: "This can't be, oh God"
Maybe they will understand he was never
But will be too late, so die forever

Circling in the sky the demons now descend
To raise their slaughter of mankind till its end
The final massacre of people on the earth
Pain cracks their minds, everywhere is Death

False Gods in their temples tremble with fear
They know the death is now so near
Unearthly Armageddon burns with flames of doom
Poisoned seed flung into virgin's womb

Circling in the sky the demons now descend
To raise their slaughter of mankind till its end

The final massacre of people on the earth
Pain cracks their minds, everywhere is Death

Merciless angels fly overheads
It's no time for your imploring pleads
Commit suicide with horror in your eyes
Bleeding with scars, pride world now dies

Warriors with hate inflict destruction
Comes true the awful prediction
Still alive corpses lie in the street
Spitting the blood to the God
Dying in flames dammed mob
Screaming with pain: "This can't be, oh God"
Maybe they will understand he was never
But will be too late, so die forever

Different Armageddon came true under our eyes
Dust comes down when the time came for sunrise
The final massacre, winds destroy the earth

Impaled heads notify, that winner is the Death
