Sir, this ocean covered ice abounds  
but i will warn surrounding ships  
to turn it around

Radio,  
wireless transmission sent  
transmission sent

I don't want to stick around  
you know, you can't make me sit and watch the show  
I don't want to stick around  
you know, you can't make me sit and watch the show

But I will warn surrounding ships  
turn it around

Radio,  
wireless transmission sent  
transmission sent

I don't want to stick around  
you know, you can't make me sit and watch the show  
I don't want to stick around  
you know, you can't make me sit and watch the show

I can't believe you're letting your anger  
effect the lives you have to save  
take control (x2)

Transmission sent (x2)

I don't want to stick around  
you know, you can't make me sit and watch the show  
I don't want to stick around  
you know, you can't make me sit and watch the show

I can't believe you're letting your anger  
effect the lives you have to save  
take control (x2)
