Well this is a letter
To everyone who thinks that they know better
To every girl that thinks that I won't get her
If she's rough with you
There's nothing that I'd rather do than fight

This is a warning
To everyone who thinks that I'm in mourning
You know they're wrong in fact
I'm reassuring you that I'll be true
Won't let no one mess with you tonight

So it's gonna be
Heads up, heads up
They're gonna get
Messed up, messed up
For making you cry
And please don't you
Get down, get down
Cause you were no
Let down, let down
I won't say goodbye

I got your back until I die
I don't care if you don't want me sticking by
I'll keep ten feet behind just to walk you home
And I'm gonna protect you till I die
I won't let nobody hurt you again
I'll rough up your next girlfriend if she breaks your
heart

This is forever
I'm done pretending that it's now or never
Got no other motives what so ever than to talk to you
Make sure that you're gonna be all right

So I'll see you later
If you meet someone go ahead and date her
And if she's good to you then I won't hate her
I won't fuck her up
But if she's bad to you well then I might

So it's gonna be
Heads up, heads up
They're gonna get
Messed up, messed up
For making you cry
And please don't you
Get down, get down
Cause you were no
Let down, let down
I won't say goodbye

I got your back until I die
I don't care if you don't want me sticking by
I'll keep ten feet behind just to walk you home
And I'm gonna protect you till I die
I won't let nobody hurt you again
I'll rough up your next girlfriend if she breaks your
heart

And I got your back until I die
I don't care if you don't want me sticking by
I'll keep ten feet behind just to walk you home
And I'm gonna protect you till I die
I won't let nobody hurt you again
I'll rough up your next girlfriend if she breaks your
heart
