"New Way Home"

Visit "[New Way Home](#)" on MotoLyrics.com

(Chorus)

I had to find a new way home

I had to find a new way....

(End Chorus)

Slowly...I'm healin'...

Broken hearts taking little time

But now that I'm feelin' stronger

It's time I changed one last pattern of mine

No I...have to find me a new way home

Can't be drivin' by your house no more

How's that old sayin' go?

"You better leave well enough alone,

And find a new way home."

(Chorus)

I had to find a new way home

I had to find a new way home

(End Chorus)

Oh, I have to drive an extra mile or two

Oh, what else can I do?

Honey, I don't wanna see you

Cause someday I'll see somethin' I don't wanna see
and

It'll only break my heart all over again

Can't afford it my friend, this will have to end

It's the only heart I've gotten

It needs a little more time to mend and...

I have to find me a new way home

I can't be drivin' by your house no more

How's that old sayin' go?

"You better leave well enough alone,

And find a new way home."

(Chorus and K.T.)

I had to find a new way home

I gotta find me, a new way to get home

I had to find a new way home

I gotta find me, a new way...home....
