"Can't Explain"

Visit "[Can't Explain](#)" on MotoLyrics.com

Lost in a dream I had today
Won't ever fade away
Where I am no one can tell
Lost in a ??? that I see
Never let go on me
Wondering what would break the spell

I can't explain what's going on
Don't know where I belong
Why do you have to go away
I can't explain what's wrong with me
Life's become misery
To make this nightmare change
You've got to come back and stay

Lost in a ??? over sea
Caught in a misery
Where I am no one can tell

I can't explain what's going on
Don't know where I belong
Why do you have to go away
I can't explain what's wrong with me
Life's become misery
Why do you have to go away
I can't explain what's going on
Don't know where I belong
Why do you have to go away
I can't explain what's wrong with me
Life's become misery
To make this nightmare change
You've got to come back and stay
