Damned if I do
Damned if I don't
Comes to your love
Maybe I won't
Oh,you're calling back our own
Got an idea,leave me alone
But if you think you saw something in my eyes
That reminded you of a better time
But we're all alone,shiver in the cold
Guess you made four walls your home
And now it seems like a long long time ago
Taste a little love
Help me move my soul
And now it seems like a long long time ago
Taste a little love
Help me move my soul
(solo-Davy)
Took a little time to steal your heart
Took a little less
Break it all apart
Oh,late at night I call your name
Listen to the wind
It's always the same
And now it seems like a long long time ago
Taste a little love
Help me move my soul
And now it seems like a long long time ago
Taste a little love
Help me move my soul
(harmonies-James,West,Davy)
(lead-James)
And now it seems like a long long time ago
Taste a little love
Help me move my soul
And now it seems like a long long time ago
Taste a little love
Help me move my soul
(outro solo-Davy)
