Smile for the camera you take a pretty picture  
I'd like to hang one on my wall  
But I get too sentimental  
Seeing your face everyday  
I like the way you mistreat love

But I keep coming back for more  
Well I like abuse don't shut the door  
We always want what we can't have  
Just one more night

(chorus)

Go ahead and use me baby when it comes to you  
Ain't got no self respect no respect for myself baby  
Mistreat me right

No respect  
No respect

Anytime you want me like a fool I'm waiting for you  
I like the way you break my heart  
It's so exciting waiting never knowing what you're  
feeling  
I like the way you mistreat love

But I keep coming back for more  
Well I like abuse don't shut the door  
We always want what we can't have  
Just one more night

(chorus)

So go ahead and use me baby when it comes to you  
Ain't got no self respect no respect for myself baby  
Mistreat me right

No respect for myself baby  
No respect when it comes to you  
No respect go ahead and use me  
No respect
