Don't you know it's a secret place somewhere you
always hide alone you can ease the pain that you felt
deep inside
Powder Blue was the color of your eyes and of my
dreams Along you would do it for you always do it for
love all for love Powder Blue you got lost do it for love
Powder Blue

Sleep away in your dreamy world Clouds just keep
flowing by Alone whose your best friend his name is
Powder Blue While you hide you would do it for love all
for love Powder Blue you got lost do it for love Powder
Blue Blue Blue

Got my ticket on a big jet plane should of known better
but I had some pain
Now six hours later I was there for you but where you
lost Powder Blue
Hay hay
Oh hay hay
Hay hay hay
And there was still no way

Love all for love Powder Blue you got lost do it for love
Powder Blue you got Lost_
Come on baby come won't you do it for me Blue Blue
Blue Blue
