Dream dream away
All of your nightmares
But memories remain
Sometimes they can haunt you

In your arms I slept last night
Even though I wasn't there
Your body knows it just can't lie
And in your dreams I'll come tonight

So let me in your dreams tonight
Let me be the one
I'm with you while you sleep at night
You say that I'm the one

All of your years
You taste the salt of tears
You feel the smoke and shadows
Now nothing really matters

In your arms I slept last night
Even though I wasn't there
Your body knows it just can't lie
And in your dreams I'll come tonight

So let me in your dreams tonight
Let me be the one
I'm with you while you sleep at night
You say that I'm the one

You feel smoke and shadows this is not a dream

So far away you hear the call
Your body cries you want it all
You see the smoke but you know they lie
When you feel the pain around the fire

(chorus)
