I can not be alone  
Like this for too long  
I feel my walls caving in  
And I can't begin to describe  
Just what it takes  
To get me through these days  
I feel my feet off the ground  
Without you around I...

(Just can't let go)

Days go by  
And there's just no peace of mind  
Without you, it's hard to find  
Cause I know, I know  
I lost it when I lost you

I am always changing my face  
And changing my name  
I'm drinking 8 cups a day  
I'm always awake  
Cause I am just a little insane  
Neurotic and mundane  
And now I'm strapped to this bed  
Cause what's in my head I...

(Just can't let go)

Days go by  
And there's just no peace of mind  
Without you, it's hard to find  
Cause I know, I know  
I lost it when I lost  
Your faith in my  
Fucked up sense of pride  
There's no reason left to fight  
Cause I know, I know  
I lost it when I lost you

Don't say sorry please  
(I lost it when I lost you)

I'm going crazy  
(I know, I know I lost it when I lost you)  
For you

Days go by  
And there's just no peace of mind  
Without you, it's hard to find  
I know, I know

(Just can't let go)

Days go by  
And there's just no peace of mind  
Without you, it's hard to find  
Cause I know, I know  
I lost it when I lost you  
Don't change your mind  
Cause there's so much left in life  
Without you there is no I  
I know, I know I lost it when I lost you  
I lost it when I lost you  
I lost it when I lost you
