It's over before you said  
One step forward and three steps back  
I've been wasting time  
A few more years til I question life  
I struggle with answers for  
Every question to why I've poured  
Myself into this hell

Cause all that I've died to save  
Has slipped right through your ears  
And into its grave

And if you only knew what I do  
You'd realize there's a curse that's upon you  
And I can't stand the way, the way, the way  
You look at me  
The way, the way, the way  
My best is never enough

My best is never enough

I'll tear down the wall that hides  
Me from all of my alibis  
Show you what you love  
Is it all that you thought it was?  
For every praise that's sung  
Someone hates where it started from  
What you do  
Defines find you

Cause all that I've died to save  
Has slipped right through your ears  
And into its grave

And if you only knew what I do  
You'd realize there's a curse that's upon you  
And I can't stand the way, the way, the way  
You look at me  
The way, the way, the way  
My best is never enough

I've given my life  
I've given my time  
I've given my everything to you  
So now I'm giving you up  
I'm finally getting it right  
Done with giving my everything to you

My best is never enough

If I'm made of glass  
(Look at me and see that my past)  
Told by the words I scream  
(A true reflection, a promise ring)  
No matter the pain I feel  
(Something in me, it's something real)  
That guides me, when I sing

And if you only knew what I do  
You'd realize there's a curse upon you  
And I can't stand the way, the way, the way  
You look at me  
The way, the way, the way  
My best is never enough  
(The way, the way, the way)  
My best is never enough  
(The way, the way, the way)  
My best is never enough  
(The way, the way, the way)  
My best is never enough  
(The way, the way, the way)  
My best is never enough  
(The way, the way, the way)  
My best is never enough

Never enough...
