You got it - I need it
You know I'm in despair

You give - I receive it
More than I could ever bare

Some sticky situation
Want loving anywhere
No scruples, no patience
Some loyal man I am

I want you
I need you
Celeste

I want you
I need you
Celeste

Today you are salvation
Tomorrow I want more
You shake it, -I take it
I'm just a fool, - I don't care

Nice body,
Good-looking,
I know I'm beautiful

Got money,
Good lover,
I need to be adored

I want you
I need you
Celeste

I want you
I need you
Celeste

Guardia Civil Intermezzo

But when you take a close look
You see I can't be trusted
Some perfume,
Nice make-up
One smile and I am lost

I want you
I need you
Celeste

I want you
I need you
Celeste

Ending

You know ,
I'm so proud you love me too
Yeah..

You know ,
I'm so proud you love me too..
