Ride Of Norsemen

[M/L: Jevø]

We sailed the North Sea up and down  
Spreading norman piracy  
Searching for conquest and for loot  
Reached the Mediterranean sea

Reckless and daring vikings  
Pirates of northern lands  
Searching for gold and treasures  
Wild men of war

Side by side - by means of hard axe blows  
One by one - they fell to the ground  
Side by side - with swords strokes and arrows  
One by one - to die suffering were they bound

Founding reigns in Irish lands  
Up the Seine we took Paris  
The wrath of Odin did we bring  
Burning towns from France to Greece

By drakkars crossed the oceans  
Boarding warships and boats  
Inland we raped and plundered  
Thirsty for blood

Side by side - with power of Norsemen  
One by one - their ships did we burn  
Side by side - we sailed up the rivers  
One by one - destroying the towns we found
