Not enough, not enough, not enough baby  
Notah not enough time

[Verse1]

You're something special girl you know  
Plus you're blowing my mind  
Baby I wish there was a little more time  
Like 48 hours in a day  
Maybe then I can love you my way

[Chorus]

Not enough hours in a night [in the night]  
Not enough time to hold you tight [hold you tight]  
Oh how time just passes by  
When we're making love [when we're making love]

Not enough hours in a night [oh yeah]  
Not enough time to hold you tight [not enough time]  
Oh how time just passes by [ohhh]  
When we're making love [when we're making love]

[Verse2]

What a shame, what a shame, tonight  
We both got to go to work  
But baby maybe we can call in sick  
Just say the words  
We don't have to go anywhere  
Just chill in each others armz  
We could pass the time, way like this everyday

Now tell me what you want me to do  
No please I rather be than with you  
Ain't nothing that I do when more  
Then making love to you  
Tell me how you want it baby, and I'm there  
You can tell me anything, I don't care  
Girl we ain't got time at all  
Just tell me you'll be with me when the sun comes up

[Bridge]

Not enough, not enough, not enough baby

Notah not enough time  
Not enough, not enough, not enough baby  
Notah not enough time  
I wanna make love to you

[Chorus]  
Not enough hours in a night  
Not enough time to hold you tight [oh yeah]  
Oh how time just passes by  
When we're making love

Not enough hours in a night [ohhh]  
Not enough time to hold you tight [I'm telling you baby]  
Oh how time just passes by  
When we're making love [when we're making love]

Not enough hours in a night  
Not enough time to hold you tight  
Oh how time just passes by  
When we're making love [when we're making love]
