I tried to forget  
But I can't let go  
All love that we share  
All love that we know

(Chorus)  
It's getting late  
And it's getting cold tonight  
I don't want to lose you  
It's getting late  
And it's getting cold again  
I don't want to lose you

I tried to forget  
But I can't let go  
All love that we share  
All love that we know  
I tried to forget  
But I can't let go  
All love that we share  
All love that we know

( Chorus)  
It's getting late  
And it's getting cold tonight  
I don't want to lose you  
It's getting late  
And it's getting cold again  
I don't want to lose you

I don't want to lose you ...
