All is new, when love passes through
The air so clear, the sky so blue
We belong, we belong on the page
(Oh we could sing about it) on the page
(Oh we could write about it)

Nothing's wrong, when love comes along
When all the sounds become a song
We belong, we belong on the stage
On the stage
We could start a show
We could break this cage

What will the future bring
How can we make it clear
Oh while the day it sings knowing that you were near
Baby I'm in love with you
Is all that I need to hear
Maybe that's all there is

The sunny side of the street
Making it through the snow
What is it, what is it
Now, we could dream about it
Now, let's make a dance about it

Look at the moment now
Promised that it would stay
Look at the edges now
Most of it's gone away

Can we keep it on a screen
Can we watch it on replay
Or is that all there is

The sunny side of the street
Making it through the snow
Where can those memories go now
Now, we could sing about it
Now, we could write about it
Now, we could dance about it

Now, let's make a show about it

Nothing's wrong, when love come along
When all the sounds become a song
We belong, we belong on the stage
(Oh we could dream about it) on the stage
(Let's make a dance about it) we could start a show
(Oh we could dream about it) we could break this cage
(Let's make a song about it)
