up and died
you up and died on me
i cant believe you actually died
i havent cried
it hasnt rained on
i cant believe you actually died

i havent tried
coz youre not dead youre free
i cant believe you actually died

and i know that your happy there
even though i dont know where
the other side,
side i tried to see
but i cant see
i cant believe
your on that side

your bodys gone
but youre ghost haunts me
i cant belive you actually died

at your grandmas church, the funeral
i held the baby
i cant beleive you actually died

i cant belive that you actually died
i cant believe that you let your parents cry
i cant beleive you actually died

i cant believe that you actually died
i cant believe.... htat you acutally died

i cant beleive you actually died (x2)
