She's cold now like the night.
Burning eyes cut like skin to a knife.
Can you hear us breathing an you hear us coming,
And calling out the sun is falling the air fading.
Your heart is breaking.
And will you scream out loud.
Let's kill the chemicals inside our heads.
Fear is just a lie that leaves us dead.

She's hallow like a grave.
Broken Heart cries from the souls that she takes.
Can you hear us breathing? (Can you hear us
breathing?)
And calling out the sun is falling the air fading.
Your heart is breaking.

And will you scream out loud.
Let's kill the chemicals inside our heads.
Fear is just a lie that leaves us dead.
Let's kill the chemicals inside our heads.
Fear is just a lie that leaves us dead.

Can you breathe right now. (Can you breathe?, Can you,
Can you breathe?)
Can you breathe your cries burn like fire.

Let's kill the chemicals (Let's go!) inside our heads.
Fear is just a lie that leaves us dead.
Let's kill the chemicals (Let's go!) inside our heads.
Fear is just a lie that leaves us dead.
Let's kill the chemicals (Let's go!) inside our heads.
Fear is just a lie that leaves us dead.
Let's kill the chemicals, Let's kill the chemicals, Let's kill
the chemicals, Let's kill the chemicals!
