pen the doors, the twilight doors and feel the power
of darkness, receive her in depth of your soul

Threshold must be crossed away,
get ready for be the continent of a power kept for
centuries

And it'll be your dominion

Empire of darkness soon'll be revealed to you;

You must let die mercy and compassion to know deep
sense of anxiety and passion

Threshold must be crossed away,
get ready for the continent of a power kept for
centuries

And it'll be your dominion.
