I cannot choose a single word, to describe how much it
is hurts

You killed a feeling that was just about to keep us
strong

The future-plans that we had made, was it only just a
fake?

What's the price for your new life, it is worth to fuck of
all?

Hear me after I have spoken words to you that don't
come easy from my mind

Feel me after I have touched your body more than
once you were so satisfied

Another man came in your life, a sacred love without
disguise

You give all the love you have, but what he wants is
only cash.

You follow him where he may go, to support his freaky
show

You cannot see that you are heading for a crash.

Hear me after I have spoken words to you that don't
come easy from my mind

Feel me after I have touched your body more than
once you were so satisfied

I wanna see you, I want to believe in you

I wanna help you, I wanna trust in you

Hear me after I have spoken words to you that don't

come easy from my mind

Feel me after I have touched your body more than

once you were so satisfied
