They tell me stay in touch  
Boy you could be so much  
You could be so much more  
Just open up that door  
Seize opportunity  
As if I couldn't see  
As if I didn't know what I could be

They swear I'll never fall  
I'll rise above it all  
The world can't hold me down  
I'll turn it all around  
They see no strings on me  
As if I couldn't see  
As if I didn't know that I was free

They say I should go far  
They know that I'm a star  
They say we hope that you  
Do what you want to do  
They say it is their plea  
As if I couldn't see  
As if I didn't know their hopes for me

They tell me I've got skill  
And say I just need will  
And if I do not strive  
To keep my art alive  
They fear obscurity  
As if I couldn't see  
As if I didn't share that same worry

They point her out and say  
That girl will have her day  
She's got it all worked out  
She knows what it's about  
And what she wants to be  
As if I couldn't see  
As if she wasn't everything to me
