Darlin' I've been standin' here

Just watchin' you all night

And I think I've even caught you watchin' me a couple times

If I don't ask I'll never know

Do you believe in love at first sight

Chorus:

Me Neither

I'm glad that we agree

Believe me

That's a big relief

WEll, this place is awful crowded and

this music is so loud

Would you like to go

and grab a bite to eat

Me Neither

It's nice to finally meet a girl

Who doesn't move to fast

I was only checkin'

that's the reason that I asked

Relationships need time to grow

you and I should take this slow

And darlin' tell me

would you like to dance

Me Neither

I was just bein' polite

Thank Goodness

My feet are much too tired

I'm sure you're tired too

I can see an empty booth

would you like to maybe sit

and talk awhile

Me Neither

We'd never get along

I'm thinkin' there's no chemistry at all

this has been a waste of time

and I'm runnin' out of lines

Don't you think It's time for me to end this song

Me Neither
