"Wrapped Around"

Visit "[Wrapped Around](#)" on MotoLyrics.com

Every day I clock out

And head straight to her house

We cuddle up on the couch

But it's always the same ole way

I'm drivin home and it's incredibly late

Something's gotta change, cause

Chorus:

I've been wrapped around her finger

Since the first time we went out

Every day and every night she's all I think about

I need that girl beside me

When the lights go out

I think it's time to put a ring on the finger

I'm wrapped around

Went to the bank took out a loan

Went and bought the perfect stone

Called up her dad on the phone

I'm takin him to dinner Sunday night

I've never been so nervous in my life

I want to do this right, cause

Chorus:

I've been wrapped around her finger
Since the first time we went out
Every day and every night she's all I think about
I need that girl beside me
When the lights go out
I think it's time to put a ring on the finger
I'm wrapped around

Bridge:

Yes sir I love her very much
I know it's only been seven months
But that's long enough

Chorus:

I think it's time to put a ring on the finger
I'm wrapped around
