

## Midway State, The "Change For You"

Visit "[Change For You](#)" on [MotoLyrics.com](http://MotoLyrics.com)

[Nathan Ferraro]

So here we fall and here we break  
And all that we had is now just a mistake  
I guess it got boring and old  
So what have you done  
You left me alone

You've got your things  
You've got them all  
You know there's nothing you won't have  
And I'm afraid I don't got the cash to keep you happy  
And I'm upset 'cause you've shown me that you're not  
free  
Yeah  
You need big fat limousines to keep you high  
To keep you safe  
Keep you in love

What if I change for you  
Then will you see me still with you  
Well I'd never do it  
I'm no fool

So here we fall and here love breaks  
And all that we had is now just a mistake  
You look so young  
Feel so misled  
And your stuffy friends have gone to your head

You've got your things  
You've got them all  
You know there's nothing you won't have  
And I'm afraid I don't got the cash to keep you happy  
And I'm upset 'cause you've shown me that you're not  
free  
Yeah  
You need big fat limousines to keep you high  
To keep you safe  
Keep you in love

What if I change for you

Then will you see me still with you  
Well I'd never do it  
I'm no fool  
Honey I'm not you

[Carly Rae Jepsen]  
I walk away  
Thinking back to the days when you held me close in  
my puffy white coat  
And I told me, "Joe I will never let go  
No  
I need you more, than my life itself"

And the rain poured down and you kept me dry  
And you took the tears falling from my eyes  
And the snow came down and you kept me warm  
Yeah  
And you kept you safe from my daddy's storm

When he said to me that I can't see you  
"A poor boy's got nothing good to do"  
Now they got to you  
And I heard you say

[Nathan Ferraro]  
You want some rich guy instead of me

[Carly Rae Jepsen & Nathan Ferraro]  
What if I change for you  
Then will you see me still with you  
Well I'd never do it  
I'm no fool  
Honey I'm not you

You ask me to change for you  
Then will you see me still with you  
Well I'd never do it  
I'm no fool

[Nathan Ferraro]  
Honey I'm not you
