

Midway State, The "Everytime We Die"

Visit "[Everytime We Die](#)" on MotoLyrics.com

Boys go with girls better than you think
I wish it weren't so easy to fall in like and then to love
Do you like me
I love you so much sometimes

What happened today
It's like every time we die
I'll try harder again
It's like every time you die on me

I couldn't take this on my own
I need some guidance from someone

What happened today
It's like every time we die
I'll try harder again
It's like every time you die on me

Take off your shoes and lose your socks
Pull out your guts and dry them on the rocks
So you can live like all the rest
With bare insides and cute outsides

Dress up your bed for a one night stand
That's all he's interested in
And his last words
You thought they were honest
Well honestly

I couldn't take this on my own
I need some guidance from someone

What happened today
It's like every time we die
I'll try harder again
It's like every time you die on me

This lonely wind is turning your eyes
My stomach's churning
A pretty haze runs over my head as waves rush under

Take off your shoes and lose all your self-respect in
one night
It's how you're thinking tonight
And when you're thinking I wish I was drinking

I couldn't take this on my own
I need some guidance from someone

What happened today
It's like every time we die

I didn't want to win you over
No
Not at all

I didn't want to win you over
No
Not at all
Not at all
Not at all
Not at all
Not at all
