Met a man on top of the hill  
Met a man  
He said, "Take this pill"  
Met a man who'd turned away  
He stole the sun from everyday

Met a man with dark brown eyes  
Met a man  
He was throwing lies  
Met a man  
He was good with fire  
He warmed me up  
He did inspire

Met a man on top of the hill  
Met a man and his cup was spilled  
Met a man and he took me home  
And he made me feel alone  
Alone

Met a man and he took my hand  
Said, "These folks  
They don't understand  
Come here boy  
You just come with me  
With my help you don't have to be"

He said, "Come here kid and I'm gonna teach you with  
all my fancy fire  
Come here kid and I'm gonna seat you on top of this  
hill  
I can 'cause you are blind and boy you are desperate"  
You're troubled at home and I know what's wrong  
I see you fading so I'll help you up tonight  
Come up here in the air tonight"

Met a man  
I was overwhelmed  
Met a man  
And yes  
He helped

Met a man and he helped my cry the driest tears out  
from my eyes

Met a man and he looked so kind  
Understanding I was blind  
Met a man covered in red and he found a way inside  
my head

Met a man on top of the hill  
Met a man and his cup was spilled  
Met a man and he took me home and he made me feel  
alone  
Alone

Met a man and he took my hand  
Said, "These folks  
They don't understand  
Come here boy  
You just come with me  
With my help you don't have to be"

He said, "Come here kid and I'm gonna teach you with  
all my fancy fire  
Come here kid and I'm gonna seat you on top of this  
hill  
I can 'cause you are blind and boy you are desperate  
You're troubled at home and I know what's wrong  
I see you fading so I'll help you up tonight  
Come up here in the air"

"Oh  
You're troubled and boy you are desperate  
You're troubled at home and I know what's wrong  
I see you fading so I'll help you up tonight  
Come up here in the air"

"Oh  
You're troubled and boy you are desperate  
You're troubled at home and I know what's wrong  
I see you fading so I'll help you up tonight  
Come up here in the air  
Come up here in the air  
Come up here in the air tonight"
