And we're rollin' down
The windows for this ride
And there's not much time
To take things slow
We will turn our heads into the sunset
As the storms rage in the west
And we're goin' down
To see my lady luck

Now I'm not really interested
In tellin' you my mind
Just let me drag another before you go
I'm a broken wire
Yeah, nobody knows where to find us
Cause it ain't nobody's loss

And I can't decide
If this place is make-believe
And worked all my life
To turn sleet to snow
We will turn our heads into the sunset
As the storms rage in the east
And we're goin' down
To see my lady luck

Now I'm not really interested
In tellin' you my mind
Just let me drag another before you go
I'm a broken wire
Yeah nobody knows where to find us
Cause it ain't nobody's loss

Well it's nobody's loss
No nobody's loss
No nobody's loss
No nobody's loss
