Well you know how it goes when you [help up your bitch  
while it's] hot  
I was out on the beach, down in grease, I was in for  
some fun  
And there she was  
Looking so fine, this stark lookin' woman just had to be  
mine  
She gave me this drink, it just made my head spin  
instantly  
Then she told me she lived in the hills with the king of  
gypsies  
Said I was brave  
Making the pass, but I only knew that I needed her fast  
Chorus:  
Can't stop, nowhere to run - I'm heading for a storm, no  
way left to turn  
Can't stop, nowhere to run - I'm heading for a storm, no  
way left to turn  
We made love, she's so hot, fell asleep, I woke up, it  
was night  
She was gone, I heard voices around me and I realized  
- out in the dark  
They're waiting for me, I'm starting to run but they're  
closing on me  
(chorus)  
(Solo)  
(chorus)  
Can't stop, nowhere to run - I'm heading for a storm  
Can't stop, nowhere to run - I'm heading for a storm  
Can't stop, nowhere to run - yeah, heading for a  
storm... (to fade)
