You needed your freedom, I thought that I needed  
mine  
We both were too young to know, we shouldn't let it go  
We went our own ways, and time passed us by  
Now when I think of those schooldays, I realize  
Chorus:  
Once in a lifetime (once in a lifetime), one in a million  
(one in a million)  
Our love was that special kind that's so hard to find, but  
we didn't realize  
Yesterday in and out another town, suddenly saw your  
face  
Right out there in the crowd  
You said you were happy, you got someone who treats  
you right  
And I recognize that fire in your eyes, oh girl you  
should be mine, 'cos  
(chorus)  
Once in a lifetime (once in a lifetime), one in a million  
(one in a million)  
I've had my share of love, oh I know how to play the  
game  
But there [a feeling gained], I've never been the same  
No never been the same, never been the same  
Once in a lifetime, one in a million  
I know I'm just chasing dreams and I just can't seem to  
get you off my mind  
Once in a lifetime, one in a million... (repeats out)
