You were the one that was always just telling the truth  
Playing your game that was so very easy to do  
I was believing you, easy to play with the fool  
You made your plans like a pro, yeah you played it so cool  
Time after time after time, you hurt this boy deep down inside  
Time after time after time, but this time I'll get what is mine  
Chorus:  
This is war - ain't gonna take all this shit anymore  
This is war - I'm gonna strike back this time, that's for sure  
Sometimes two people can bring out the best in each other  
But lately I feel that my evil side's beating the other  
Somehow I feel that the worst in me is gonna show  
I ain't gonna hold it back, I'm going to let it go  
Time after time after time, you hurt this boy deep down inside  
Time after time after time, but this time I'll get what is mine  
This is war - ain't gonna take all this shit anymore  
This is war - I'm gonna strike back this time  
(Solo)  
(chorus)  
This is war! This is war! This is war!
