Music: S.Lill Lyrics: A.Kuntz

New tecniques based on plasmid transfer now make it

possible

possible to determine

exact nucleotide sequences of isolated sections of the

when we raise clones

that's what we do

the thread of life is a threat of life

so what are we

we

we are

we are not

we're not god

creature

we've raised in laboratories

on base ephemeral

input keylock principal

genemachine you'll never know what you can do

protection of the rich ones

surveillance of the poor

so what when we raise a secret mushroom that we can't

control

when we raise clones

that's what we do

the tread of time is a dread of life

so what are we

we

we are

we are not

we're not god

brand new breed based on plasmid transfer now make

impossible

possible to determine

insane nucleotide frequences

eliminated

selection of the dna

when we raise clones

that's what we do

the thread of life is a threat of life

so what are we

we are we are not we're not god
