

Van Der Graaf Generator "Every Bloody Emperor"

By this we are all sustained: a belief in human nature
and in justice and parity...all we have is the faith to
carry on.

Imperceptible the change as our votes become mere
gestures
and our lords and masters determine to cast us
in the roles of serfs and slaves
in the new empire's name.

Yes and every bloody emperor claims that freedom is
his cause
as he buffs up on his common touch as a get-out
clause.

Unto nations nations speak in the language of the
gutter
