I was only young
You were some years more
I was holdin on
You were slippin away
I was scared
You had known all along
I had seen it before
Never thought it for me

I wait by your side
Holding you hand
An I won't let go
Until I except

It's goodbye

You were walking strong
I was running from truth
You were lying there
Told me I should believe
An look at me now
I'm holdin on
Once I was blind
But now I am strong
(Strong, strong)

It's goodbye for now
But it's not the end
As long as I know
I'll see you again
There's no need to cry
No need to be scared
As long as I know
There's nothing to fear, but it's hard
So hard
To wait for the day we can laugh
And it hurts
I find
I think I can make it
With God on my side
(God on my side)

God on my side

I think I can make it

God on my side

It's goodbye for now

But it's not the end

As long as I know

I'll see you again

There's no need to cry

No need to be scared

As long as I know

There's nothing to fear, but it's hard

So hard

To wait for the day we can laugh

And it hurts

I find

I think I can make it

With God on my side
