I come from an Island  
In the Carolina sand  
Where I was broke down,  
Built up and reborn a fighting man  
My blood runs red,  
white and blue  
I'll brave the cold,  
the rain, the pain  
and the bullets  
so you don't have to

Don't worry about me;  
I'll be all right  
Just care for your children and sleep tight  
I'll keep you safe  
on my watch tonight

It's a long, long way from that island  
And a long way from home  
With the thought of you standing behind me  
I could never be alone

There's a promise  
I need you to make  
While I'm gone you take care of the love  
And I'll deal with the hate

Don't worry about me;  
I'll be all right  
Just care for your children and sleep tight  
I'll keep you safe  
on my watch tonight

Don't worry about me;  
I'll be all right  
Just care for your children and sleep tight  
I'll keep you safe  
on my watch tonight
