Me n you gota long way to go
we have everything right now
but i think your leaving...
not just away from me
but away from everyone
your hurt...
i can feel it
i know when my best friend is hurt
your out in the hospital..

20% chance of living
what could anyone do?
all these machines connected to you
what you gonna do
your best friends worrying about you
what you gonna do
best friends trying to come see you
what you gonna do
family only
what you gonna do
blow the last kiss to your best friend...
you aint gona see him anymore...
he'll see you...you dont see him

hes my sweet angel
n i say PAPIA is like no other
i say we are like sony n char
he says no they broke up...
we are like ben and tiffany

still go visit my best friend...

hes gonna b my best friend till the end
