I come from an Island
In the Carolina sand
Where I was broke down,
Built up and reborn a fighting man
My blood runs red,
white and blue
I'll brave the cold,
the rain, the pain
and the bullets
so you don't have to

Don't worry about me;
I'll be all right
Just care for your children and sleep tight
I'll keep you safe
on my watch tonight

It's a long, long way from that island
And a long way from home
With the thought of you standing behind me
I could never be alone

There's a promise
I need you to make
While I'm gone you take care of the love
And I'll deal with the hate

Don't worry about me;
I'll be all right
Just care for your children and sleep tight
I'll keep you safe
on my watch tonight

Don't worry about me;
I'll be all right
Just care for your children and sleep tight
I'll keep you safe
on my watch tonight
