**DON'T TAKE YOUR LOVE AWAY**

Don't take you love away from me  
Don't grab your coat and walk down that lonely street  
It's early yet, and this candle's bright  
And there's still time  
For us to live a little bit tonight

Don't take your love away just now  
We've still got time to play if you can stay a little while  
It seems it's clear the best is yet to come  
And there's still time  
For us to drink a little wine tonight

You know I've put my faith in you  
I hope you know that you can put your faith in me  
All that's needed is to just believe  
And we can make this world our pearl right now

Don't take your love away from me  
Don't close the door  
When there could still be so much more  
There's something here that we both can't deny  
But it disappears  
If we just turn away and say goodbye

Don't take your love away  
Don't take your love away  
Ooo, ooo, ooo, ooo, ooo, ooo, ooo, ooo, ooo
