"Only A Smile"

You and your smiling face
Doesn't mean a thing to me
Any man will pick you up
Just because of that smile you've got

But after knowing you
As much as I
He's gonna leave you
Just like I did

The smile you were smiling dear
Did excite me so much
That I had a feeling
I never had before

But after knowing you
I had to run
Because it's only
A smile you've got

The smile you were smiling dear
Did excite me so much
That I had a feeling
I never had before

But after knowing you
I had to run
Because it's only
A smile you've got
Because it's only
A smile you've got
