Riding on a high and windy day
Deep in the month of May
Riding on a high and windy day
Riding my troubles away

Nobody knows the pain I feel
Nobody knows my misery
I wear a smile upon my face
Anyway

And now I'm riding on a high and windy day
Deep in the month of May
Riding on a high and windy day
Riding my troubles away

I've got a feeling I can't deny
I'm all alone and I want to cry
But I'm still a man and I can't deny
My pride

Nobody knows the pain I feel
Nobody knows my misery
I wear a smile upon my face
Anyway

And now I'm riding on a high and windy day
Deep in the month of May
Riding on a high and windy day...
