"Dirty Rider"

Visit "[Dirty Rider](#)" on MotoLyrics.com

I've been framed
I'm in the bike game
I'm Mikill Pane
Catch me racing through the city
Causing havoc in the cycle lane
I ride this silver charge plug ten
And I'm a mad man
Mum says "Wear a helmet" or I'm gonna need a CAT
scan
Speedin' is my speciality
I tend to get it right
Popping upon my pedals like
What the f*ck's a red light?
Everyone in London knows Mikill Pane's name
Cause I zip across the junctions
Like I'm YKK HEY!
They shout mad abuse at me
And pick their wing mirrors up
I ain't lost my mind
I've given it up
I'm a wild dixie punk
And even if I hit the ground too
I'm frankly nasty
Tonight Matthew I plan to be kamikaze

I won't deny it
I'm a nutty rider
If you wanna roll with me
Bring your bike and your helmet
'Cos I can't help it
I can't control my speed [x2]

If you can handle bars
Let down your mudguard
And let me in
I'm just trying to pedal sh*t
But I'm not selling anything
I crash for them
And then back on the rider seat
Before my wounds heal
Foolish fake MC's run out of gas

I keep it two wheel
I'm a different kind of street
And that's just how I talk
So why mention a knife
When I can brag about my forks
I don't want to derailleur
Throw you of the track
I keep my flow
Just like my chain brother
There's no room for the slack
There's no feeling like you get from this
I've really got a habit
The irony of the high MC
That's in the bottom bracket
I'm not sure what.....
But I know this is the best yet
I'm fully right to die from my tokens
To my head set

I won't deny it
I'm a nutty rider
If you wanna roll with me
Bring your bike and your helmet
'Cos I can't help it
I can't control my speed [x2]

I wanna ride with you ride with you
So I gotta see a cycle inside of you
And I'll be cranky
'Cos I know that we'll be great
But I don't have any brakes
So I might really frighten you [x2]

Up, up, up
I won't, I won't, I won't [x2]

I won't deny it
I'm a nutty rider
If you wanna roll with me
Bring your bike and your helmet
'Cos I can't help it
I can't control my speed [x2]
