### "Hello"

I woke up late one morning  
And I didn't smell the coffee  
My friends formed a posse

There's a bee inside my head  
He's gonna buzz till I'm dead

Hello, do you know where my mind is?  
Hello, it's gone I can't find it  
Hello, do you know where my mind is?  
Hello, it's gone I can't fight it

She's the greatest stimulant  
I've ever tried  
So I run and hide

A lot of bees inside my head  
Are gonna buzz till I'm dead

Hello, do you know where my mind is?  
Hello, it's gone I can't find it

My head is numb  
Now I am dumb

Hello, do you know where my mind is?  
Hello, hello
