"There Is A Girl"

There is a girl
Who wears on my heart
And I'd like to get smart
To see what she's doing to me

There is a girl
Who walked miles for me
But I'd like to know for real
That she cares about me

In my dreams I fly
So high in the sky
Try to be free

Let us escape
To a world with no name
Where nothing's the same
A place where blind men see

Let's go away
The line is soon to be crossed
Let's find our paradise lost
Let's make our escape

In my dreams I fly
So high in the sky
Try to be free
Just like a bird
