Turn off the lights, turn off the lights
So that I can't see you walking away
Turn off the lights, turn off the lights
so I can feel you hesitating

The last time that I saw you,
Was 4 AM
And I've been thinking what to say to you since then

It's because of me, flat out 'cause of me
Well I never had an excuse

Oh no, it's gone
And I wanted to feel that way forever
I had to let it go to see, to see
It's back, right now
And it feels exactly how I remember
I won't be letting go this time
When its all said and done

Turn off the lights, turn off the lights
So that I can't see you walking away
Turn off the lights, turn off the lights
So you can feel me waiting

The last time that I saw you,
Was 4 AM
And I've been thinking what to say to you since then

It's because of me, flat out 'cause of me
Well I never had an excuse

Oh no, it's gone
And I wanted to feel that way forever
I had to let it go to see, to see
It's back, right now
And it feels exactly how I remember
I won't be letting go this time
When its all said and done

Can you feel me too?

The way i feel you
Whenever you're not there

Theres a part of me
That makes me wanna go, that makes me wanna go
But no matter what you tell me
I'll be gone until I'm ready
And did you know that I was there for you?

Oh no, it's gone
And I wanted to feel that way forever
I had to let it go to see, to see
It's back, right now
And it feels exactly how I remember
I won't be letting go this time
When it's all said and done
(oooh oooh oooh, oooh oooh oooh)
When it's all said and done
(oooh oooh oooh, oooh oooh oooh)
When it's all said and done
(oooh oooh oooh, oooh oooh oooh)
When it's all said and done
(oooh oooh oooh, oooh oooh oooh)
Turn off the lights, turn off the lights...
