

Mile After, The "Let It Down"

Visit "[Let It Down](#)" on MotoLyrics.com

You know I've been drinking
My senses are leaving
Enhance my dreaming
And my feelings for you

But we're young to this city
So we gotta do everything
Not to let it down
Not to let it down

It's up to me and you
To do all the things our
Parents taught us
So well not to

We're young and alone
So let's do everything
Ignore the telephone
It's not for you

Constantly
It's so hard to breathe
I can hardly see
Sense of smell's left me
And what's the point to hear
Unless it's her voice saying
We can disappear
What in the hell did she do to me
What in the hell did you do to me
What in the hell did you do....to me

I'll always want to sleep
If she's the one i'll see
The one I'll see

You know I've been drinking
My senses are leaving
Enhance my dreaming
And my feelings for you

But we're young to this city

So we gotta do everything
Not to let it down
Not to let it down

It's up to me and you
To do all the things our
Parents taught us
So well not to

We're young and alone
So let's do everything
Ignore the telephone
It's not for you

Constantly
It's so hard to breathe
I can hardly see
Sense of smell's left me
And what's the point to hear
Unless it's her voice saying
We can disappear (we can disappear)
Oh I know we can disappear
What in the hell did you do to me
What in the hell did you do to me
What in the hell did you do....to me

What in the hell did you do to me (everything not to let
it down)
What in the hell did you do to me (everything not to let
it down)
What in the hell did you do (everything not to let it
down)
...to me

I'll always want to sleep
If she's the one I'll see
Me I'll always want to sleep
If she's the one I'll see
We will always want to sleep
If she's the one I'll see
