

Mile After, The "Two Months...Two States"

Visit "[Two Months...Two States](#)" on MotoLyrics.com

with my only hope
to ease my suffering
i'll look at this picture
a hundred times more
if that's what it will take
cause i need her more than
i need the smell of the sea
when she is with me
i can do no wrong

two months and
two states away
will not do for me
cause i will choke
and my throat will close
and i will not breathe

cars and highways
will be the only thing
to make my day
cause on the road to her
is on the road to heaven
cause i need her more than
i need the smell of the sea
when she is with me
i can do no wrong

where she stands
three seventy three
miles away
she's miles away
